Sangavi Ramesh

Interaction & Product Designer with a background in Architecture, interested in complex systems, human behaviour, and emerging AI interactions. I use research, systems thinking, and interaction design to turn ambiguous problems into clear, usable experiences.

*Currently pursuing **M.Des in Interaction Design at IIT Hyderabad**.*

Experience

Product Design intern, Jamoons digital | Chennai, 06/26 - 08/26

- Designed a unified digital wallet experience for NETS Singapore.
- Simplified complex payment, card, and wallet management flows.
- Worked on UX, visual design, graphics, and animations.
- Collaborated with cross-functional teams to refine product experiences.

Interaction Designer, KappaX.io | Pune, 08/24 - 07/25

Worked on interactive ad experiences and product design systems. Designed engagement-driven ad interfaces using Kappa, contributing to a 15% increase in revenue.

Collaborated on:

- Website design and product revamp (v3)
- UX audits and interaction improvements
- Scalable ad templates across multiple domains

Associate UX Designer, Lollypop Design Studio | Chennai, 08/23 - 02/24

Led UX design for a healthcare platform as the sole designer, working across strategy, IA, and execution.

- Conducted discovery workshops and stakeholder alignment
- Translated business needs into structured user flows
- Designed an SEO-focused marketing experience

Also contributed to:

- HDFC ERGO career portal workflows
- Internal initiative “PopShare” for design knowledge exchange

UI UX Designer, Unicorn Design Studio | Chennai, 12/22 - 07/23

Worked on early-stage product and brand building.

- Designed a fintech platform from 0 → 1
- Led branding and website experience
- Conducted 60+ UX audits for client pitches
- Represented the company in design discussions and podcasts

UI UX Design Intern, Designient school | Bangalore, 10/22 - 12/22

Contributed to:

- Decathlon website revamp
- Branding and social media design
